With an even curve from tip to tail, this balanced rocker line is extremely consistent, easy to control, and rolls up the wake for a smooth predictable pop.

Similar to our Continuous Rocker but with a more kicked up tip and tail, resulting in more vertical pop than a Continuous Rocker and more predictability than a 3-Stage.

Based off the 3-Stage, this rocker line maintains a flatter profile between the bindings but features a more blended transition towards the tip and tail. This creates an effortless glide across the water and gives the board a predictable yet amplified pop off the wake.

This rocker line is generally flatter between the bindings but dramatically angles upward towards the tip and tail. This explosive rocker line generates a more aggressive and vertical pop off the wake.

Using smaller fins and a sharper rail, these boards have a loose, skatey feel on the water making it easier to complete surface spins and more skate inspired moves.

V-LOC TECHNOLOGY

Inverted v-shaped channel in the tip and tails designed to cup around rails; making it easier to lock in and control nose and

CONCAVE TUNNEL

Narrow tunnel that provides more speed and predictable tracking.

Extremely light foam core wrapped in a durable polymer shell.

MOLDED IN FINS

Quad molded in fins.

DELTA BASE TECHNOLOGY"Chevron" shaped channels molded into the tip and tail of the board reduce drag for faster edging and a cleaner release off

CARBON FIBER LAYUP

Aerospace grade carbon fiber fabric that provides a quantum jump in performance over traditional fiberglass with unmatched strength to weight ratios.

FLEX TECHNOLOGY

Specific layups designed to flex in just the right places, giving you a board that explodes off the water, softens landings, and presses features with ease.

Eco-friendly material that looks and feels like neoprene, but contains no rubber foam or Volatile Organic Compounds, making it the most environmentally friendly life jacket material on the market.

IMPACT BASE
Fully sintered high-density polyethylene base material that holds up to seasons of shredding rails, kickers, ledges, and whatever else you muster up.

INFLATABLE SUP

Safe, stable, lightweight, durable, and easy to store. You can't go wrong! Dual action pump included.

FUSION CORE

Two wood stringers sandwiched next to our Feather Core foam. 5 times more durable than traditional foam and enhances the board's snap and pop off the wake.

CARBON STRINGERS

Provides serious strength and responsiveness to the board.

SOFT TOP

Soft, padded top surface and rails; minimizes chances of damaging the board, you or anything else.

FEATHER CORE

Feather Core reduces the board's swing weight for more midair control, while simultaneously maintaining its profile up the face of the wake for maximum pop.

Provides a high level of break and buckle resistance while maintaining a natural and lively flex pattern.

Paulownia wood core for minimum weight, maximum durability, and an organic feel. Our wood core ensures your board will withstand seasons of shredding.

Hardwood laminate veneer add strength and a smooth flex pattern.

DURARAIL SIDEWALLS

Impact resistant urethane rail that runs around the entire edge of the board; protecting the core from any hazard you throw its way.

Smooth and easy ride for all day shredding

SURF STYLE

Using larger fins and a rounder rail, these boards have a surf inspired feel with their flowy turns, powerful hacks, lightning speed, and ability to boost big airs.

VARIABLE BEVELED EDGE

and tail for more bite.

The V shape of the spine disperses water outwards upon impact resulting in softer landings.

Rolled edges for a smoother, catch-free ride, sharpening at the tip

When it comes to park boards, the trend is "Bigger is Better" and that's exactly what Max wanted in his new Pro Model. Coming in a 142, 146, 150 and 154, The Fix is a powerhouse in the park with tons of flex and it may be the most fun board we've ever created. Its fast, yet relaxed feel on the water minimizes fatigue and helps you perform at your best all day long. Feel free to crank into kickers and push the boundaries of the sport like Max or get super technical on rails by using that extra length and flex to take your presses even further... as well as soften your landings. With it's V-Loc tip and tail, slightly concave belly and relatively "skinny stance," The Fix will take your rail game to new levels; making it easy to lock into presses, control your position on rails and keep your style on point. The revolution in park riding is here, so come get your Fix.

S.O.B PARK SERIES

The S.O.B. may be the most versatile board on the market. Initially designed to appeal to the needs of the hard-charging cable crowd, the S.O.B. has it all; Impact Base, Durarail sidewalls, Fusion Core, minimal channeling and a concave hull. Its refined flex pattern feels snappy under your feet allowing for huge ollies, explosive pop off kickers, effortless pressing and smooth landings. What's even more impressive is that this "park board" excels behind the boat as well. Sean swears that it's the best board he has ever ridden behind the boat and based on how he's riding and how much fun he's been having on the water this just might be your go to "boat board" as well.

INDIE

PARK SERIES

Featuring a park-specific design built around a 100% hardwood core, the Indie delivers the optimum park riding experience with tons of flex on rails and a snappy pop off kickers. With its center tunnel running the entire length of the board, the Indie self-centers and locks onto rails with ease. Not only does this reduce friction on the rails, but it assists in tracking as well. To give this finless ride a little more bite, the Indie incorporates a series of stepped channels running along the rails, adding the perfect amount of traction on the water without sacrificing performance on obstacles. Finished off with our ultra durable Impact Base and Durarail Sidewalls, the Indie is sure to make your next trip to the park your best one.

PARK SERIES

For all the women shredding the park, here is your new board! With its high performance freeride feel, the Stiletto will take your riding to new levels. The smooth, transitional flex pattern of the Fusion Core makes the board firm enough between your feet for an explosive pop off kickers, yet soft and flexy at the tip and tail for effortless pressing and impact dampening. Its concave base keeps the board riding high on the water; reducing drag therefore minimizing fatigue, so you can keep charging all day. Armed with O'Brien's signature Impact Base and Durarail, the Stiletto is capable of handling any park feature in its path. You'll ollie higher than ever before, land tech tricks you've only dreamed of, and only take a break when the cable operator cuts you off.

LAKK ROAKD2

FREMONT

PARK SERIES

Affordable and durable, the Fremont is the perfect board to get you started in the park. Its ultra light Feather Core provides a firm platform between the bindings and a soft, forgiving flex in the tip and tail. This gives the board a smooth, freeride feel on the water and plenty of performance on rails and kickers. It's featureless base and removable fins promote proper edge control for beginner and intermediate riders, so there's no cheating here. From day one, this board will help you learn to ride the proper way and ultimately allow you to take your riding to whatever level you desire. Since we know that it won't take long before you start playing around on the park features, we've armed the Fremont with Durarail Sidewalls to handle the inevitable abuse you'll put it through as your riding progresses.

LINK

EXCLUSIVE

Released in 2018, Cory Teunissen's pro model board, the Exclusive, took the wakeboard world by storm. Cory describes this board as a CTP on steroids. It's faster, more explosive off the wake, and, thanks to a full-length center spine, lands softer than any board he's ever ridden. The Exclusive kept the CTP's rocker line, thin profile, variable beveled edge, and full step-down rail to maintain similar ride characteristics, but everything else is different. The board is wider, the tip and tail have a slightly different shape, but the biggest difference is the completely redesigned base contouring. Not only does the board have the center spine, but it also utilizes an intricate channel system combined with inset fins for greater efficiency and hold while edging, simultaneously making the board feel loose and free while riding flat. If you've been keeping tabs on Cory's riding over the past year, you know that he somehow manages to keep getting better and better. He'll be the first to tell you that it's a result of the board he's riding.

BOAT SERIES

Looking to get booted like Jeff Langley? The Rome is a great place to start. This super stiff board utilizes a wider profile and a 5-Stage Rocker to maximize lift off the wake. Normally you'd have to worry about the repercussions of going too high, but with the Rome's center spine, hard landings are a thing of the past. With its width, floaty Feather Core, Delta Base and bottom channeling, the Rome is a perfect board for intermediate to advanced riders looking for the ultimate relaxed, freeride feel.

D.O.C. VALHALLA

LIMITED EDITION

Born from the global outcry of David O'Caoimh's 25k+ passionate YouTube followers, the DOC Valhalla is David's first limited edition signature graphic and it comes on the board that he's been heavily promoting and riding for the past couple years, the Valhalla. This is the first time we've ever done this, and to make it special, David created a Social Media contest for his fans to design and submit artwork that he would use as graphical inspiration. After pouring over countless entries, a winner was chosen and this special edition came to life! With David being the industry's hardest working rider and content creator, we know that this board will soon be all over YouTube, Instagram and any other platform that David chooses to dominate.

VALHALLA

BOAT SERIES

Everyone has been loving the modifications made to the Valhalla. Its new contouring and balanced thickness profile have taken an easy to ride board and made it even more forgiving to benefit beginner and intermediate riders. With that being said, some of the best riders in the world, Shota Tezuka and David O'Caoimh, rave about the Valhalla and have made it their go-to board. Its Feather Core, new thickness profile, and molded fins give the Valhalla tons of control from edge to edge making it an ultra reliable shape. The new contouring, along with its Progressive Rocker and Delta Base, generates a smooth, controlled pop off the wake; allowing the rider to maintain control in the air and build confidence in their riding.

ACCESS

New for 2019, the O'Brien Ratio has everything a pro rider needs, but is truly ideal for beginner to intermediate riders looking for a predictable 3-stage board with explosive pop off the wake. Designed with 4 molded fins as well as tracking channels, the Ratio provides a smooth ride with plenty of hold on the water. The variable beveled edge keeps the midsection of the board catch-free and tapers towards the tip and tail for added bite when edging. This easy to ride board is perfect for building fundamentals, improving confidence, and enhancing progression.

HOOKYBOAT SERIES

Behind the boat and in the park, there is no better board for young rippers than the Hooky. Designed specifically to enhance the performance smaller/lighter of riders, the Hooky uses its forgiving shape, reduced width and Feather Core for superior maneuverability and easy edging. Its Progressive Rocker gives the rider a nice kick off the wake giving them plenty of time to add more moves to their bag of tricks. With its Dual Hybrid Rail Construction and Durarail tip and tail, the Hooky can also handle your local cable park with ease. These features make the board extremely durable and capable of handling all of the abuse these riders put their equipment through.

MAKESURFERS

VAKEOUKFERO

BEGINNER 1-2-3-4-5-6-7-8-9-10 EXPERIENCED

Hunter Sims's signature Censor is a true skim style board with sharp edges and a flatter, faster rocker line. The 100% carbon layup makes the board both light and strong while increasing responsiveness. The outline is based off the classic pintail shape, but the entire deck has been widened for more float, push, and easier spins. Its concave deck and full length machined EVA pad provides a skate-inspired feel on shuvs, while the 3-fin option allows you to customize the ride to match your style. Go with just the center fin if you prefer using your rail to generate speed and enjoy a loose ride - or add the two outer fins for a more aggressive feel. Outshine the competition with the board that can do it all - The Censor!

The Vader V2 returns better than ever as our quickest rail to rail carver. The newest rendition of the Vader V2 features two carbon stringers running the length of the board; providing added snap and responsiveness. The wide tail generates forward drive, while the flatter rocker line through the midsection increases glide-combined they boost the board's speed, so you can take to the air or add more power to your rail game. The concave deck provides additional control and stability during strong bottom turns and massive hacks - it also grips your feet a little more during airs. With 5-fin option, the Vader V2 can be set up in multiple fin configurations to suit your riding style.

VAIL SKIM SERIES

BEGINNER 1-2-3-4-5-6-7-8-9-10 EXPERIENCED

The Vail draws its roots from our best skim style shapes and blends them into a rider friendly package for all. The carbon fiber stringer running the length of the board gives the Vail a snappy, responsive feel that we can't get enough of. Its minimal rocker line boosts the board's speed and glide, while the full length EVA pad and concave deck provide heightened responsiveness, stability and control. The subtle diamond nose and tail allow the board to release easily from the water and provide a solid pivot point while you blast turns. No matter how you choose to ride it - thruster, twin or single fin - the Vail will have you stoked on surfing!

FORTE SKIM SERIES

BEGINNER 1-2-3-4-5-6-7-8-9-10 EXPERIENCED

The Forte pushes the envelope of skim style behind the boat with more width in the tip and tail for stability and drive, and a thinner profile for a quick, carvy feel on the face of the wave. Equipped with a single skim style fin and sharp rails, the Forte slices through the wave and generates tons of forward drive, yet is still loose enough for endless spins and shuvs. Definitely a fun board to have in your quiver!

MICROWAVE

SKIM SERIES

BEGINNER 1-2-3-4-5-6-7-8-9-10 EXPERIENCED

Built 100% with younger/smaller riders in mind, the Microwave is the perfect board to not only build the rider's confidence and get them comfortable wakesurfing, but it also gives them everything they need to progress their surfing. Featuring a traditional skim style shape with some added width in the tail, the Microwave generates plenty of speed and forward drive making it easy for the rider to stay on the wave. Our color-coded pad simplifies learning - shift your body forward over the green front pad to go faster and bring it back over the red tail pad to slow down.

LANDLEROAKN2

CALCULATING BOARD VOLUME:

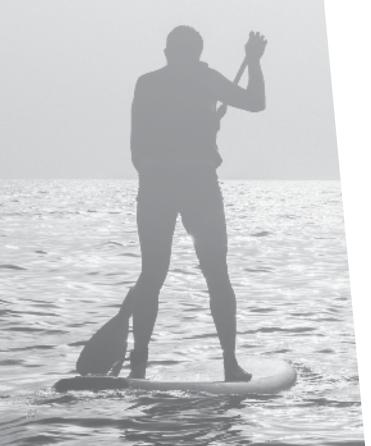

(Your Weight in lbs X .45) x Skill Factor = Target Volume

Example: You are a beginner and you weigh 195 lbs (195 lbs X .45) x2 (Skill Factor) = 175.5 Your board should have a minimum volume of 175.5 liters.

SKILL FACTOR:

Beginners = 2 Intermediate = 1.7 Advanced = 1.3

- The appropriate board size depends on weight, skill level, and volume of the board. The more you weigh, and the lower your skill level, the bigger the board you'll need.
- · One liter of volume floats one kg weight.
- In order to factor in your skill level, multiply your Skill Lever Factor x Your Weight in kilograms to get your recommended volume in liters.
- 1 lbs is approximately equal to .45 kg.
- When in doubt, lean to the next board size up.

PASSAGE

EPOXY SUP

BEGINNER 1-2-3-4-5-6-7-8-9-10 EXPERIENCED

Built for performance and stability in any conditions, the Passage features a hybrid displacement hull that planes easily on flat water, while the front keel slices through waves, chop and rollers. High volume D-shaped rails and a single-to-double concave hull help the board track straight and clean.

Skiers Weight: 66" 125-175 / 67" 160-190 / 68" 180+

RELAYPRO SERIES

SIZE: 64.5" / 66" / 67.5"

The Relay has a unique fore-body design with greater width for an aggressive but controlled, no-compromise finish to the turn. The Relay features a flex pattern for skiers who place a premium on stability and cross-course angle. Balanced, aggressive turns provide the skier with the opportunity for a secure and locked-in cut.

SYNCHRO

PRO SERIES

SIZE: 63" / 66" / 69"

The Synchro's wide body is designed to let you ski the course or take on open waters in equal style. If you want to slow down and work on technique this is the tool to use. The Synchro is designed to ski 30 to 34 MPH. Easier to get up on, turns on a dime, and maybe you can back off the speed a couple of MPH.

RINDING9

DIVISION

Built on an aluminum plate, the Division features a front lace system for ease of entry and exit. The low-profile design gets your center gravity as close as possible to the water for maximum performance. Built-in lateral stiffeners and the last-style footwear construction make this one of the best fitting boots on the market. Dual stretch zones make it extremely comfortable and allow for an easy release. The open toe design provides a more forgiving fit, so its easier to share between similar-sized friends and family. 14° of rotation lets you tweak the binding settings to your heart's content.

AVAILABLE SIZES: 5-7 / 7-10 / 10-12 / 12-14

DIVISION RTP

The Division RTP offers built-in lateral stiffeners and lasted-style footwear construction.

AVAILABLE SIZES: 5-7 / 7-10 / 10-12 / 12-14

TITAN

While using our high-end Lo-Pro chassis, the Titan comes in a wide range of specific sizes at a lower price point. The Plastic (Nylon 6) plate is both lightweight and durable, and the integrated liner/heel makes it a snap to get on and off.

▶ **AVAILABLE SIZES**: XS-SM 4-7 / MD-LG 8-12 / XL-XXL 10-14

AVID

The O'Brien Avid is the binding for "the rest of us". If you need a binding that your whole family can share, but you still want stellar performance, look no further. The Avid features a lightweight chassis/plate combination to get your foot as close to the ski as possible. The lower cut to the binding makes for an easier release and gives great flexibility. The front lace system makes this very easy to get into, and a cinch to snug up. The EVA footbed is comfy and secure, while its wide range of size adjustments makes this the perfect binding for family use. Best of all, this binding is value priced so you can experience awesome performance without breaking the bank.

▶ AVAILABLE SIZES: XS/S, STD, XXL

LACE RTP

The Lace RTP offers built-in lateral stiffeners and lasted-style footwear construction.

▶ AVAILABLE SIZES: XS/S, M/L, XL/XXL

X-9 RTP

- ▶ AVAILABLE SIZES: XS 4-7 / STD 7-11
- ▶ JUNIOR SIZE: 2-7 (Jr. Ski hole pattern only)

PNWR09

PERFORMER

PERFORMANCE SERIES

The Performers are O'Brien's Signature pair of skis. These skis have not only taught thousands the joy of waterskiing, they've also helped make the transition from combos to slalom as fun and easy as can be. If you have slalom skiers and combo skiers in the same family, or you want to spend a lot of time on a slalom ski but you still need a pair, these are the skis for you. Built to be easy to get up on like our other combos, but with features usually reserved for higher performance slaloms, the Performers are the best of both worlds. The Performers feature the lace-adjustable X-8 bindings, which securely hold almost any size adult foot in padded comfort, without sacrificing performance. If you want the best, meet the O'Brien Performers!

LENGTH 68" / 172cm FIN Nylon BINDINGS X-8 Bindings FOOT SIZE MENS 7 - 13

CELEBRITY

PERFORMANCE SERIES

The O'Brien Celebrity Combos are our best-selling adult skis. The Celebrities make almost anyone, from newbies to experts, feel right at home on the water! With the easy adjustability and great fit of the X-7 bindings, you'll be skiing in no time. A performance oriented side-cut bevel, combined with a dual tunnel for smooth tractability, makes these our most versatile combo pair. Lots of surface area provides plenty of lift for exceptionally easy deep-water starts. For many great reasons, the Celebrities remain our best-sellers, year after year. Available in Red or Blue

VORTEX

WIDE-BODY SERIES

The O'Brien Vortex Combos are our "Big-Daddy" wide-body pair. These skis are designed for super easy deep-water starts and big, carving turns, at minimal effort. The extra surface area reduces drag and provides a huge amount of lift to get bigger skiers up on plane with ease. The large surface area also allows for skiing at a slower, more comfortable boat speed. A side benefit is it takes less horsepower to get skiers on the Vortex up and out of the water; making it easier to teach deep-water slalom starts. When there's any doubt about getting out of the water on a pair of skis, go with the O'Brien Vortex Combos. These are as close to a sure thing as you're going to find. Available in Red or Blue.

ALL STAR

TRAINER SERIES

- ▶ LENGTH 46"
- ▶ STABILIZER BAR
- ▶ TRAINER ROPE W/ HANDLE
- WEIGHT RANGE UP TO 85 LBS..
- **DUAL TUNNEL**
- MOLDED-IN FINS

When it's time to teach the kids to ski, the All-Star Trainers are the ultimate training tool! When you get a pair of All-Star Trainers, you are really getting a training system. These 46-inch skis come with a stabilizer/trainer bar that prevents the skis from doing the "splits" and keeps them level. They also come with two ropes as part of the package; a short training rope with a handle that connects to the stabilizer/trainer bar at the front of the skis that the skier holds on to, and a longer rope with a handle to be held by an experienced observer in the boat. With this system, the observer can release the skier if they fall, taking the pressure off the kid. This system makes it incredibly easy to get them up and skiing with minimal drama. Supports a weight range up to 85 pounds with kid-sized adjustable bindings. These skis features a dual tunnel bottom which track great and create lots of lift. Molded-in fins are unbreakable and provide outstanding stability. The All-Stars are the perfect system for making your kids into waterskiers!

PLATFORM TRAINER

TRAINER SERIES

- LENGTH 46"
- ▶ TRAINER ROPE W/ HANDLE
- ▶ WEIGHT RANGE UP TO 85 LBS...
- ▶ BAMBOO CONSTRUCTION

Thousands of kids learned to ski on platform-style skis back in the 50's, 60's, and 70's. Well, what worked so well back then still works great today! When it comes to getting a little skier started right, there's no substitute for surface area, and the O'Brien Platform Trainers have surface area in abundance. Constructed of eco-friendly bamboo, the Platform Trainers are the whole training package, complete with a trainer rope and handle for the little skier to hold onto, and another rope for the observer in the boat. Your kids will be skiing in no time on the O'Brien Platform Trainers!

SIMPLE TRAINER

TRAINER SERIES

- ▶ INFLATABLE COMBO TRAINER
- TRAINER ROPE W/ HANDLE
- ▶ WEIGHT RANGE UP TO 85 LBS...

There are few joys in life that rival teaching your kids to ski. The inflatable Simple Trainer will get your child started the easy way in the sport you already love. It's soft, and cushy, and just plain friendly-looking. Additionally, the inflated seat gives your child a comfy perch to stand up from. The cozy stirrups are on an inflated floor that absorbs the wakes. It comes complete with two ropes, one for the child and one for an adult to hold onto from the boat. This trainer will plane off with virtually any movement (even pulling while running along the beach) and the max speed is a very rider-friendly 8 mph. When you're done using it, just let the air out and put it away. The Simple Trainer makes teaching the kids to ski nearly automatic. Simple!

TRAINER SERIES

A EK 2 V

The Versa 2 is the newest and easiest way to get riders of all levels wakeboarding, kneeboarding, skiing, wakesurfing, and even wakeskating. Unique slip-on foot straps can be placed in a variety of positions, so you can choose your riding style. Handles can be removed or added for kneeboarding. Use the Hydrohook for easier starts or stress-free towing and the Versa also features retractable fins. The Versa is foam-filled and roto-molded with an EVA deck that's easy on your knees and feet. The progressive edge design allows the rider to cut back and forth across the wake with ease, while the rounded middle helps with surface tricks. Great for all ages and all skill levels. Tow rope is sold separately. Made in the USA. Weighs 20 LBS with bindings and handles.

- ▶ Great for all ages and skill levels
- ▶ Board lets you wakeboard, ski, kneeboard, and more
- ▶ EVA deck is comfortable to knees and feet
- ▶ Progressive edge lets you cut across the wake
- ▶ Includes handles, foot straps and Hydrohook

The SoZo is ridden by nearly ALL the top kneeboarders in the world! The clean, efficient shape initiates turns easily, edges up the wake with a clean release, and is very forgiving. O'Brien's Fusion Core (wood stringers within a foam core), is CNC machined to exacting specifications, giving the board a liveliness and lightness like no other. Sandwich Construction makes for the optimum flex pattern, storing energy and releasing it perfectly at the wake. The SoZo is explosive, lightweight and unbelievably maneuverable. The SoZo pad is state-of-the-art, too. It is extremely, supportive, fully customizable, and softens landings like no pad ever seen.

TAIL ROCKER: 1.55"

Removable Aquatic hook.

BLACK MAGIC

ROTO SERIES

AQUATIC HOOK

RETRACTABLE FINS

Probably the best "family" kneeboard on the market, the Black Magic does it all. The famous cable-actuated retractable fin system and the aquatic hook make the Black Magic the perfect board for successfully teaching kids and newbie riders the finer points of deep-water kneeboard starts. The size of the Black Magic means adults and kids can ride it with ease. The smooth bottom contour makes it super stable and extremely comfortable. The 3-inch padded strap provides a secure fit.

LENGTH: 51.5" WIDTH: 22.3"

- Retractable fins.
- Removable Aquatic hook.
- Padded, adjustable strap.
- Durable plastic base.

VOODOO

ROTO SERIES

INTEGRATED HOOK

The VooDoo combines hard-charging runs at the wake with a forgiving ride. Quad molded fins at each corner provide extra tracking, and the curved underside makes for quick and smooth edge transitions. The 3/4" thick pad provides plush comfort for your knees and ankles, while the 3-inch padded strap secures you for maximum control.

LENGTH: 51.25" WIDTH: 22."

- Padded adjustable strap.
- Integrated hook.
- ▶ 3/4" EVA pad.
- ▶ Variable beveled edge.
- Quad molded fins.

RADICA

ROTO SERIES

INTEGRATED HOOK

We've blended wakeboard and water-ski design elements into the Radica to bring levels of performance previously unheard of at this price. Wakeboard-styled quad, cupped molded fins make edging and carving a breeze, while allowing release for spin-type tricks. The water-ski influenced edge bevel helps the board sit low in the water for stability and allows quick edge to edge transitions.

LENGTH: 49.7" WIDTH: 20.1"

- Padded adjustable strap.
- Integrated hook.
- ▶ 3/4" EVA pad.
- Variable beveled edge.
- ▶ Quad molded fins

KNEERNAKN9

The Respect is suited for larger riders due to its stiffness and large surface area; providing a very efficient ride and a huge amount of lift. The Respect's pad has ultra deep kneewells and dual density EVA foam construction for extreme comfort and control.

LENGTH: 51.5" WIDTH: 22.3"

- ▶ 2:1 ratio fully padded Cinch Strap
- Aggressive rocker line
- ▶ Hand turned bevels
- ▶ Deep shock absorbing knee wells

RAZORBACK

ROTO SERIES

The board features a 3" padded shock strap, thin profile design, shift-on-the-fly retractable fins, deep padded knee wells, and the patented Hydrohook. Whether you have the fins down for slalom-like control or up for surface 360s, this kneeboard provides an exciting ride. Hydrohook pops up when in use and then automatically retracts to avoid cuts and bruises. Made in the USA.

LENGTH: 52.25" WIDTH: 21"

- ▶ 3" padded shock strap
- Thin profile kneeboard
- Deep padded knee wells
- Dual retractable fins
- Hydrohook for easy starts every time

PRO XLT

ROTO SERIES

The Pro XLT Hydrohook gets you up and riding quickly and easily. Its retractable design means there's nothing protruding to bruise you. The Pro XLT also offers a thin profile, parabolic twin tip design, dual retractable fins, contoured EVA kneepad, and shock strap for ultimate board control. Made in the USA.

LENGTH: 51.75" WIDTH: 21"

- ▶ Retractable Hvdro-Hook
- ▶ Thin profile
- Parabolic twin tip design
- Dual retractable fins
- Hydrohook for easy starts every time

HYDROHOOK

The Hydroslide Hydrohook helps beginners get up the first time, every time, and gives experts a whole new way to enjoy the ride.

KNEEBOARD BAG

Keep your kneeboard protected and safe from the sun.

PHANTOM

ROTO SERIES

This parabolic twin-tip shaped, thin-profile kneeboard gives the rider an experience hotter than the board's graphics. Deep knee wells and a 3" padded strap keep the rider in control and ready for the biggest maneuvers. Patented Hydrohook with spring-loaded action allows the first-time rider to get up quickly and easily and then retracts and stays flush with the deck when not in use. Made in USA.

LENGTH: 52.25" WIDTH: 21"

- Parabolic twin-tip design
- Ultra thin profile
- Deep knee wells
- 3" padded strap
- Hydrohook for easy starts every time

REVOLUTION

ROTO SERIES

The Revolution features a classic spoon shape that gives it a smooth, easy ride with quick edge to edge transitions - without sacrificing any pop off the wake. It's patented thin-profile design delivers great looks as well as performance found on more expensive boards. Patented Hydrohook with spring-loaded action allows the firsttime rider to get up quickly and easily and then retracts and stays flush with the deck when not in use. Made in USA.

LENGTH: 52.5" WIDTH: 20.5"

- ▶ EVA pad
- Classic spoon shape

RUNWAY CANOPY

▶ 48' X 54"

Our detachable canopy provides shade on those hot summer days providing the ultimate relaxation spot for your days on the water.

- Storage bag included
- Fits 2018 playfield and all runway
- *Runway and Playfield sold seperately

LOTUS YOGA FLOAT

DROP STITCH SERIES

- > STANDARD 3' X 7' X 5"
- ▶ DELUXE 3, X 8, X 2,

► STANDARD

- Premium 5" drop stitch construction
- Double reinforced seams
- Inflates to a rigid platform
- ▶ Tie-off D-rings
- Integrated handles (deluxe only)
- Deflates quickly for convenient storage
- Dual action pump and storage bag included

Take your yoga practice to the next level on the water! Our Lotus Yoga mat helps you unwind while you breathe fresh air and feel the water beneath you. Floating on the water adds elements of freedom and instability to your workout; providing better engagement of your core as well as instantaneous feedback on technique. Too much weight on one side during a pose will cause the mat to tilt; letting you know to correct your body position. Your movements will slow down, your poses will be more precise and you'll enhance your connection with nature and your body; all while developing mindfulness, focus and balance.

- ▶ Made from USA Waterski approved 1/4" Polypro rope
- USA Waterski sanctioned line with 10 sections from 75' to 45'off
- Color coded sections for easy identification

KALE9 / HANDLE9

8-SECTION SKI COMBO

Our value-priced, hard-core ski rope. With 8 sections, this rope can be shortened to nearly any "real-world" line-length you'll need. Begins at a total rope length of 75', but with 8 sections for skiing at 15', 22', 28', 32', 35', 38', and 40' off (or line lengths of 75', 60', 53', 47', 43', 40', 37' and 35'). A 12" wide aluminum-core EVA handle on a 5' detachable bridle section. The rope is made of top-quality 16-strand, 40 filament polypropylene rope. If slalom is your thing, this is your rope.

5-SECTION COMBO

Take your skiing pretty seriously? Then you'll want to check out this rope. Begins at a total rope length of 75', but with 5 sections for skiing at 15', 22', 28', or 32' off (or line lengths of 75', 60', 53', 47', or 43'). A 12" wide aluminum-core EVA handle on a 5' detachable bridle section. The rope is made of top-quality 16-strand, 40 filament polypropylene rope. One of the most versatile ropes in our line.

2-SECTION COMBO

This is our least expensive "all-purpose" rope. A 12" wide aluminum-core Sure-Grip handle on a 5' detachable bridle section is combined with a 70' mainline (for 75' total rope length) with a takeoff loop at 28' off (for a 47' length). 75' is the standard length for skiing, while 47' is a good length for wakeboarding or kneeboarding, making this a do-it-all rope. The rope is made of top-quality 16-strand, 40 filament polypropylene rope.

1-SECTION COMBO

Just need a good quality ski rope? This is our simplest answer, but still made with the quality for which O'Brien is famous. A 12" wide aluminum-core Sure-Grip handle on a 5' detachable bridle section. The 70' mainline rope (for a total rope length of 75') is made of top-quality 16-strand, 40 filament polypropylene rope.

1-SECTION DEEP-V COMBO

A fantastic rope for teaching or assisting anyone struggling to do a deep-water slalom start. The bridle section is vinyl coated to protect the rope from ski abrasion. Just rest your ski inside the DEEP-V, and let the "V" hold the ski straight. Makes deep water starts vastly easier. Once you're up, the rope simply pulls out from underneath the ski and performs just like a regular ski rope. Crossbar in bridle section keeps ski tip in perfect starting position and protects against crunched knuckles. A 70 foot mainline with a 5 foot detachable DEEP-V bridle section and a 12-inch wide aluminum-core handle. 16 strand, 40 filament polypropylene rope construction.

OBRIEN PRO HANDLE W/ 10-SECTION MAINLINE

13" wide handle with 4-rope construction mainline for an extremely durable braid. USA Waterski approved 1/4" Polypro rope. 10 sections allow for USA Waterski sanctioned line 75' to 45 off .

2-PERSON TUBE ROPE

This is our "regular" tube rope, best for 1 and 2 person tubes, up to 340 pounds maximum total rider weight. 60' length, with an average 2,375 LBS.. break strength

Available in Green, Red, or Orange

4-PERSON TUBE ROPE

This is our most popular tube rope, rated for up to 4 riders, 680 pounds maximum total rider weight. 60' length, with an average break strength of 4,100 pounds.

Available in Green, Red, or Orange.

6-PERSON TUBE ROPE

This is the mack daddy of tube ropes! Like our other tube ropes, this one is 60' in length. But this one is a monstrous 3/4" in diameter, rated for 1,020 pounds (6 riders) maximum total rider weight. 6,100 pounds average break strength.

Available in Green, Red, or Orange.

PONTOON BRIDLE

This high-impact plastic float / pulley system that allows for easy attachment of ski rope. Snap hooks attach quickly to existing boat hardware. 1800 lbs max. pulling weight.

Available in 16' and 12' size for Pontoon boats.

BOAT/DOCK BUNGEE

The O'Brien Boat/Dock Bungee is perfect for most boats 4000 lbs and under. The heavy duty stretch line helps keep your boat safe while also absorbing the shock on your cleats. There are foam floats at each end and two loops for a quick connection.

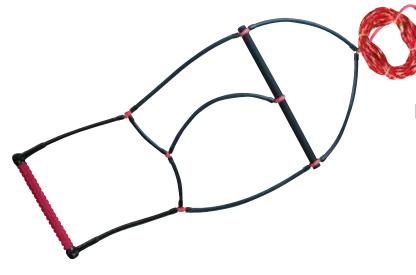

Available in 4' (Blue/White) or 6' (Purple/Green).

8' SKI TOW HARNESS

If your boat does not have a center tow pylon or a center towing hook (most older I/O's, outboards, and pontoon boats), then you probably need a ski tow harness to equalize the pull of a skier/tuber/wakeboarder, etc. This is our least expensive option, and does its job quite nicely. 8' width, with two high-strength coated steel snap-hooks. A vinyl float to keep the rope out of the propeller.

12 Strand x 84 Filament Polypro Rope.

COMBO TRAINER ROPE

The O'Brien Combo Trainer Rope is perfect for teaching both adults and children the perfect form to get up on a pair of combo skis. This special handle is designed to keep both skis parallel while being pulled out of the water. The handle will slide off of the skis once the skier is out of the water and then the skier can ski away like a champion.

- 70' mainline w/ 5' combo trainer handle.
- 16 strand, 40 filament poly rope.
- Cross bar to keep your combos in perfect position.
- Detachable mainline.

KOLE2 / HANDLE2

FLOATING ROPES

Same features as the standard rope, but with the added benefit of rope with internal flotation! Rope features an internal layer of foam that keeps it on the surface for easier visibility.

8-SECTION FLOATING SKI COMBO

With 8 sections, this floating rope can be shortened to nearly any line-length you'll need. Begins at a total rope length of 75', but with 8 sections for skiing at 15', 22', 28', 32', 35', 38', and 40' off (or line lengths of 75', 60', 53', 47', 43', 40', 37' and 35'). A 12" wide aluminum-core EVA handle on a 5' detachable bridle section. The rope is made of top-quality 16-strand, 40 filament polypropylene rope.

4-SECTION FLOATING POLY-E WAKE COMBO

The ultimate first wake rope, great for wakeboarding and kneeboarding. Comfortable 15-inch EVA prop grip 55' low-stretch poly-e mainline with 3 5' sections for 55', 60', 65' & 70' line-lengths.

5-SECTION FLOATING SKI COMBO

This floating ski rope begins at a total rope length of 75', but with 5 sections for skiing at 15', 22', 28', or 32' off (or line lengths of 75', 60', 53', 47', or 43'). A 12" wide aluminum-core EVA handle on a 5' detachable bridle section. The rope is made of top-quality 16-strand, 40 filament polypropylene rope. One of the most versatile floating ropes in our line.

2-PERSON FLOATING TUBE ROPE

This floating tube rope is best for 1 and 2 person tubes, up to 340 pounds maximum total rider weight. 60' length, with an average 2,375 LBS.. break strength

Available in Yellow, Blue, or Orange.

4-PERSON FLOATING TUBE ROPE

This is our most popular floating tube rope, rated for up to 4 riders, 680 pounds maximum total rider weight. 60' length, with an average break strength of 4,100 pounds.

Available in Yellow, Blue, or Orange.

6-PERSON FLOATING TUBE ROPE

This floating tube rope is 60' in length and 3/4" in diameter, rated for 1,020 pounds (6 riders) maximum total rider weight. 6,100 pounds average break strength.

Available in Yellow, Blue, or Orange.

2-SECTION FLOATING COMBO

This is our least expensive "all-purpose" rope. A 12" wide aluminum-core Sure-Grip handle on a 5' detachable bridle section is combined with a 70' mainline (for 75' total rope length) with a takeoff loop at 28' off (for a 47' length). 75' is the standard length for skiing, while 47' is a good length for wakeboarding or kneeboarding, making this a do-it-all rope. The rope is made of top-quality 16-strand, 40 filament polypropylene rope.

1-SECTION FLOATING DEEP-V COMBO

A fantastic rope for teaching or assisting anyone struggling to do a deep-water slalom start. The bridle section is vinyl coated to protect the rope from ski abrasion. Just rest your ski inside the DEEP-V, and let the V hold the ski straight. Makes deep water starts vastly easier. Once you're up, the rope simply pulls out from underneath the ski and performs just like a regular ski rope. Crossbar in bridle section keeps ski tip in perfect starting position and protects against crunched knuckles. A 70 foot mainline with a 5 foot detachable DEEP-V bridle section and a 12-inch wide aluminum-core handle. 16 strand, 40 filament polypropylene rope construction.

8' FLOATING SKI TOW HARNESS

If your boat does not have a center tow pylon or a center towing hook (most older I/O's, outboards, and pontoon boats), then you probably need a ski tow harness to equalize the pull of a skier/tuber/wakeboarder, etc. This is our least expensive option, and it does its job quite nicely. 8' width, with two high-strength coated steel snap-hooks. A vinyl float to keep the rope out of the propeller. 12 Strand x 84 Filament Polypro Rope,

- ▶ Sturdy wrist strap for a secure fit

WAKEBOARD CASE (PADDED)

Perfect for the plane or a weekend getaway, the wakeboard case is easy to lug around with multiple handles and straps. Holds a variety of boards and gear.

WAKEBOARD CASE (UNPADDED)

▶ The unpadded wakeboard bag is a perfect way to protect your board and store your rope, handle, shoes and anything else you'd like to keep together

▶ Keep your board protected in this heavy duty polyester bag. Full length zipper makes for easy entry and inside straps hold that board right where you want it.

▶ A padded case for your wakesurfer to keep it safe and looking new. Full length zipper and shoulder strap for easy carrying.

- ▶ Soft, terry cloth bag keeps your Wakesurfer safe.
- Length: 5'

Convenient, fully vented bag makes for an easy trip to and from the airport to the boat. Rolling wheels makes your trips easy. Velcro straps fit up to 69" (175cm) of ski securely.

3' X 7' X 5"

- ▶ Inflates to a rigid platform
- Dual-action sup pump included
- ▶ Premium 5" drop stitch technology
- Double reinforced seams
- Integrated carrying handles
- ► Tie-off D-rings
- ▶ Heavy gauge construction
- ▶ Deflates quickly for convenient storage

Floating on water adds an element of both freedom and instability to your workout, providing a better engagement of your core as well instantaneous feedback on your technique. If you have too much weight on one side in a pose, the mat will lean, letting you know to correct your body position. Your movements will slow down, your poses more precise, your connection with both nature and your movement enhanced, developing mindfulness, focus, and balance.

MARGARITAVILLE AQUA PLANK
